

HELP WEAVE PEACE IN COLOMBIA

A peace agreement with FARC insurgents at the end of 2016 was meant to end decades of terrifying violence and human rights violations.

Yet assassinations of community peace-builders increased. Every 11 days someone is killed for defending human rights. Women, Indigenous, Afro-descendant & campesino leaders are among them.

The opinions of Canadians count, since Canada is an important donor to peace-building in Colombia.

What YOU can do!!

- **Write a message to Colombia's President on a paper dove.** We will deliver the messages when the new president takes office at the end of the summer.
- **In your message,** ask the President to ensure the protection of community leaders, human rights defenders, women leaders, Indigenous and Afro-descendant communities, and all those working to build true peace with rights and dignity.
- **Be sure to add your name and where you are writing from.**
e.g. *E. Price, Pointe-Claire, CANADA*
