

CANADA: JUSTICE FOR GRASSY NARROWS

To: The Federal Minister of Indigenous Services

The people of the Grassy Narrows First Nation are living with the deadly consequences of mercury dumped into their river system more than 50 years ago. Decades of government inaction have jeopardized their health and their culture. Your government has promised to deal with the mercury crisis “once and for all.” Urgent action is needed to fully address the health and social impacts of mercury contamination. **It’s time to act.**
