

MEXICO: Protect Earth Defenders

President Andrés Manuel López Obrador:

We are deeply upset by the assassination of Rarámuri Indigenous environment defender **Julián Carrillo** on October 24, 2018. Julián had reported attacks and death threats. Yet he did not receive effective protection. Since this assassination, other environment defenders have been murdered in different parts of Mexico. Many others are at grave risk as they seek to protect forests, water and land.

Please ACT WITHOUT DELAY to:

- Speak out and publicly recognize the important work of environment defenders like Julián and others
- Investigate and bring to justice those responsible for his assassination and other killings
- Ensure effective protection of Julián Carrillo's family and other environment defenders at risk
